

## **COVID-19 Precautions for Our Clients**

To comply with Federal, State and County guidelines implemented during the current coronavirus pandemic, **Summit & Main Realty Group** requests our clients, particularly buyers wishing to view homes, to review and acknowledge the following information.

Because COVID-19 can be spread through person-to-person contact and via contact with contaminated surfaces, clients should be aware that every home they visit could be occupied by, or may have just been visited by, an infected individual or individuals.

We request our clients observe the following safety measures:

- 1. If you or someone in your household has recently exhibited symptoms of COVID-19 or tested positive for COVID-19, please reschedule your home-viewing appointments for a later date.**
- 2. Kimberly will be wearing a mask during all home visits, and strongly encourages you to do so as well. Some Brokers require all visitors to wear masks. If this is the case, Kimberly will inform you ahead of time.**
- 3. No more than three people are to be inside a home at one time.**
- 4. While in the home, try to touch as few surfaces as possible. If a doorknob, light switch, countertop, appliance, etc. is touched, alert Kimberly, so she can sterilize those surface(s) before leaving the home.**
- 5. Kimberly will attempt to remain six feet away from you at all times as you tour each home.**
- 6. You are asked to drive your own vehicle to each property, with Kimberly driving separately.**

We want our clients and property homeowners to be safe! Thank you for your cooperation.
